1.UVOD

1.1 Korišćeni programski jezici

Za izradu sajta korišćeni su HTML, CSS, Responsive, JavaScript, JQuery I Swiper

Radno okruženje: Visual Studio Code

1.2 Opis funkcionalnosti

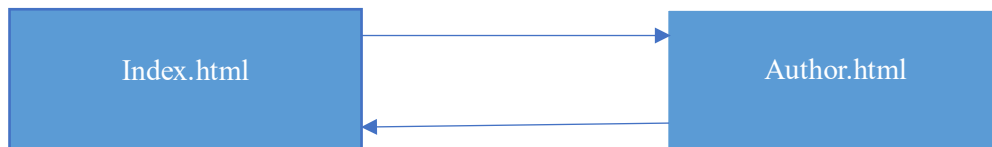

- Dinamički ispis navigacije – linkovi su kreirani i ispisani u JavaScript-u
- “Hamburger” – pri manjoj rezoluciji se uklanjaju linkovi I pretvaraju se u padajući “Hamburger” meni za linkove
- Kroz skrolovanje u zavisnosti u kojoj sekciji se nalazi taj link postaje aktivan
- Slajder – automatski se menja ili može da se menja na klik
- Read more / Read less – na klik se dodaje jos teksta ili se vraća na prvobitno stanje teksta I automatski se povećava visina bloka sa tekстом (jQuery)
- Swiper – automatski ili na klik strelicu u zavisnosti na koju stranu želimo da promeramo, može I da se prevlači kao da je touchscreen (uz pomoć swiper.com)
- Dinamički ispis u galeriji – slike su dodate dinamički
- Show more / Show less – pri kliku se dodaje jos jedan red slika I visina bloka se povećava, a na drugi klik se uklanja jedan red i vraća se stara visina bloka
- Validacija elemenata forme – sve je required I pri kliku na submit se proverava da li je dobro uneto u formi i ukoliko nije ispisuje se kako bi trebalo (ako je dobro pozeleni, a ako nije bude crveno i ispisuje kako treba)
- Dugme “Top” – pri kliku na dugme “Top” automatski se polako vraća na početak sajta do navigacije

1.3 Template

Za izradu sajta nije korišćen gotov template, ali korišćen je Swiper.com za deo "Service"

2. Organizacija

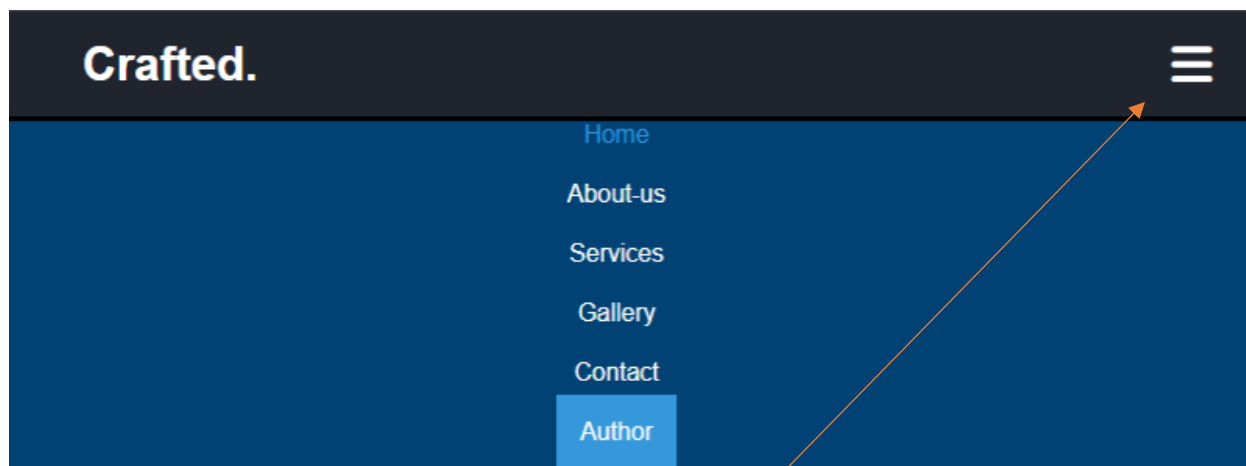

2.1 Organizaciona šema

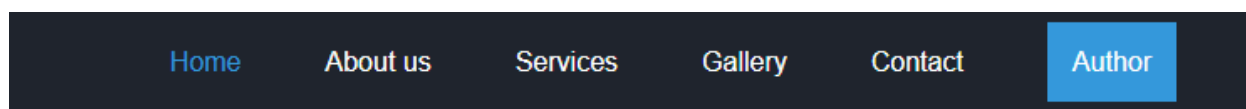

2.2 Mapa sajta

```
<?xml version="1.0" encoding="UTF-8"?>

  </url>
</urlset>
```

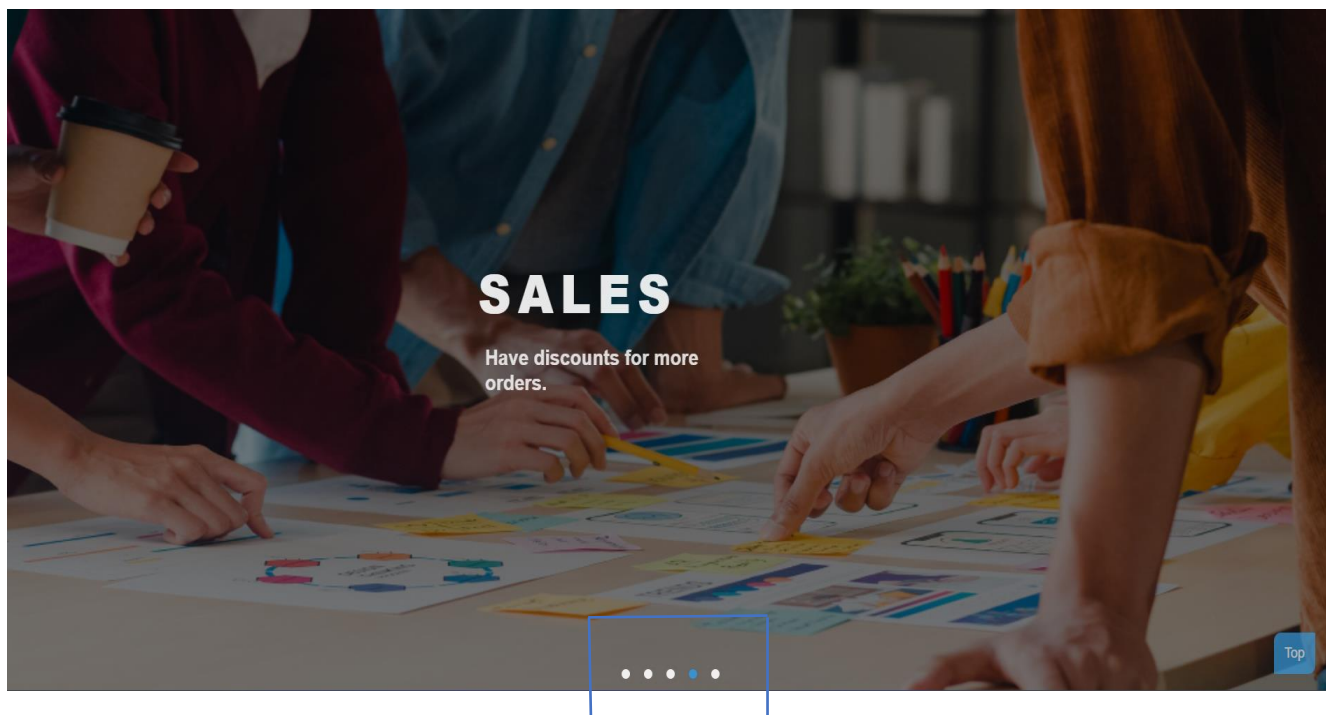

2.3 Slike stranica i opisi funkcionalnosti

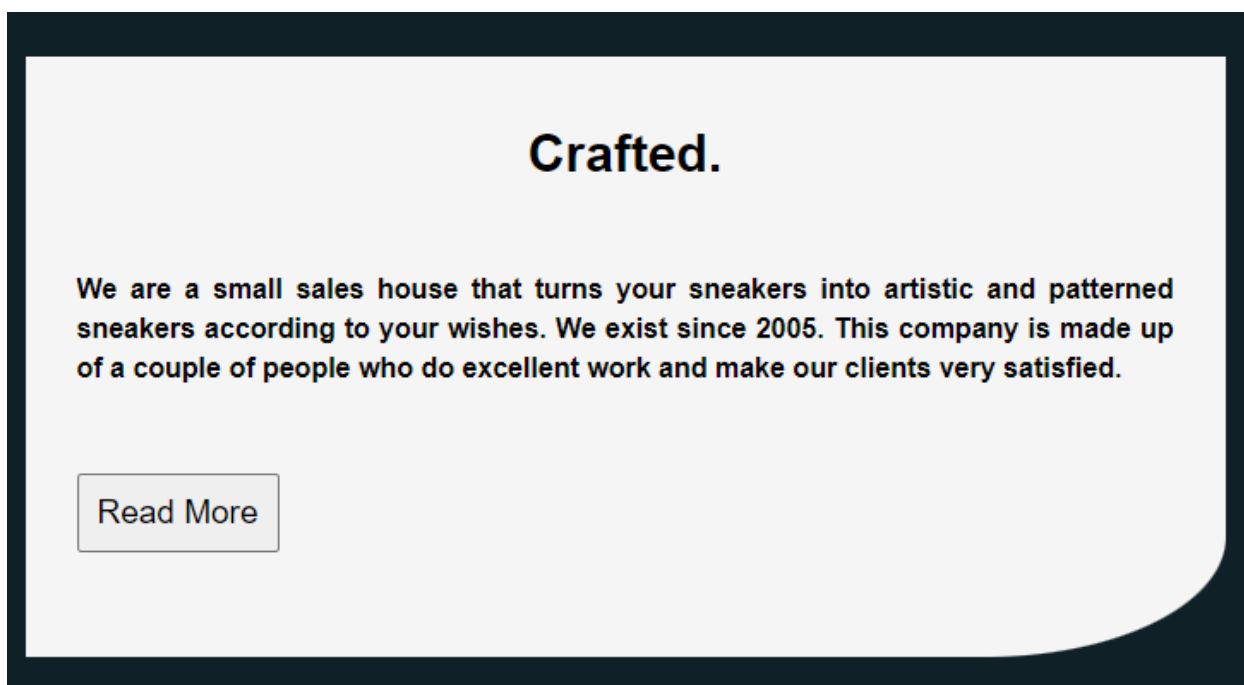

Na manjoj rezoluciji se aktivira “**Hamburger**” I klikom na njega se otvara meni sa linkovima.

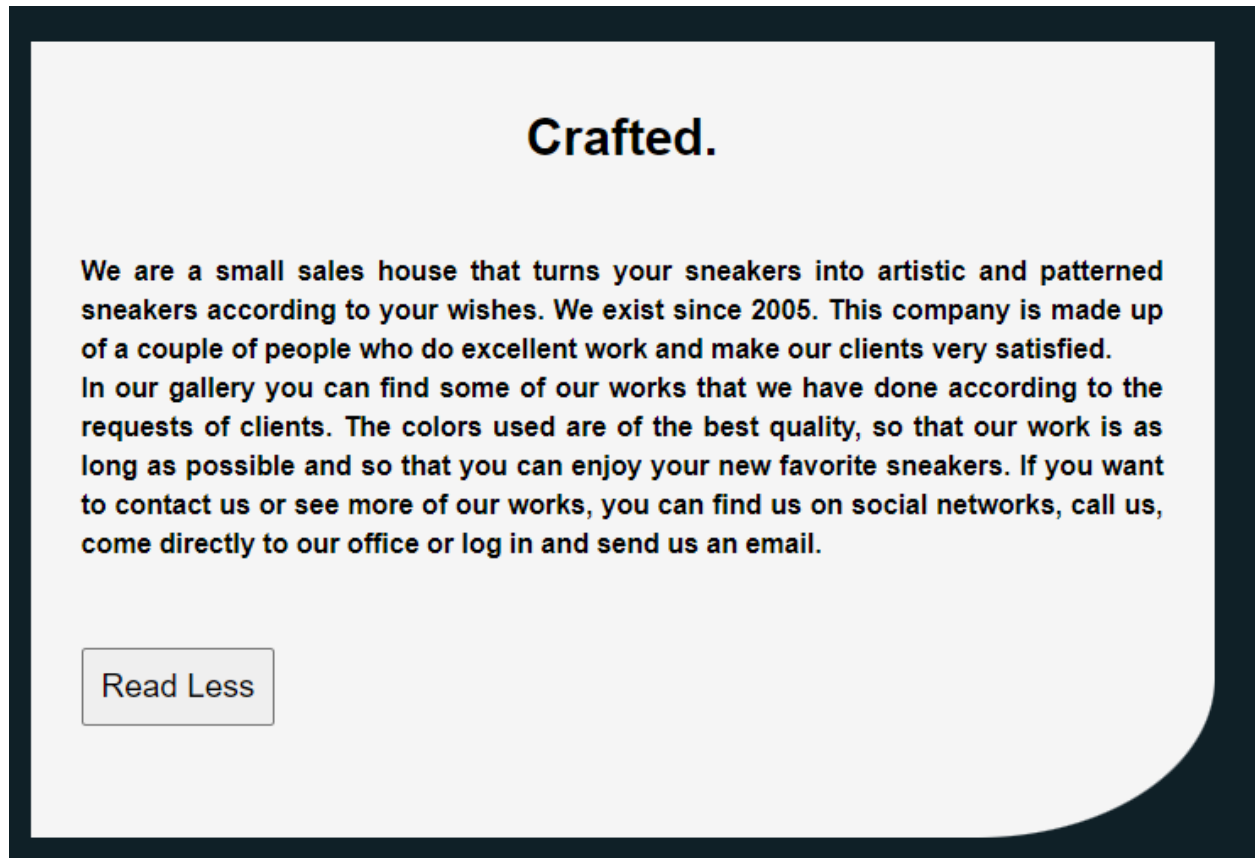

Linkovi u navigaciji su kreirani I ispisani u JavaScriptu u slučaju da se dodaje još neki link, “**Author**” vodi na drugu stranicu (author.html)

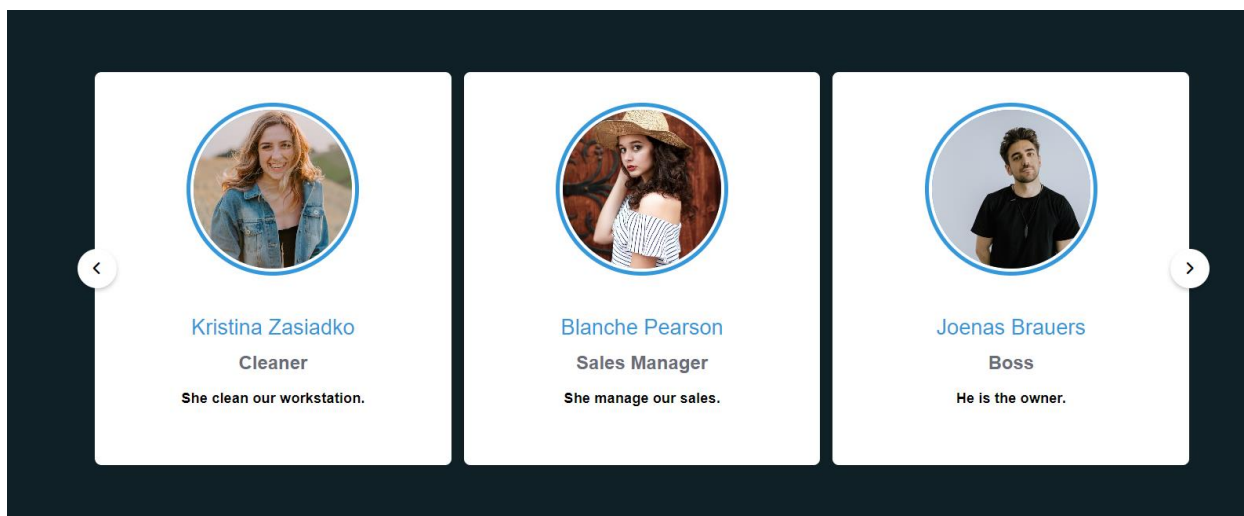

Slajder koji se menja automatski ili pri kliku na donje dugmice (obeleženo je na slici), a automatski se menja na 10 sekundi

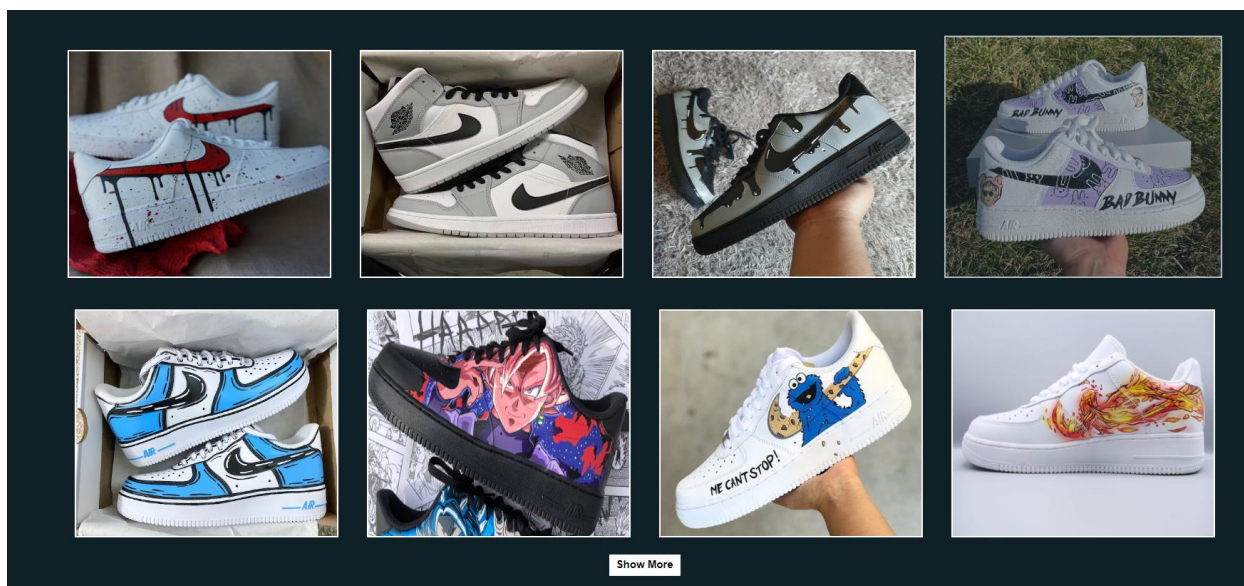

Dugme “**Read More**” automatski izbacuje ostatak teksta I povećava visinu bloka (urađeno preko jQuery-a), nakon klika se dobija sledeći efekat:

Service sekcija je urađena uz pomoć Swiper.com, menja se automatski, na strelice levo ili desno ili može da se prevlači kao da je touchscreen.

Gallery sekcija je ispisana u JavaScript-u I svaka slika ima efekat “**Hover**” I gallery ima dugme “**Show More**” koje pri kliku izbacuje još jedan red slika I povećava veličinu bloka I Show More postaje Show Less, ponovnim klikom na dugme (Show Less) smanjuje se blok na prvobitnu veličinu I uklanja se jedan red slika.

The image shows a registration form titled "Registration" in bold black text. Below the title are four input fields, each with a label to its left: "Username:", "Email:", "Password:", and "Password again:". Each label is in bold black text. The input fields are white with a light gray border. At the bottom of the form is a blue button with the text "Sign Up" in white. The entire form is set against a light gray background, which is itself within a dark blue border.

Contact sekcija (Forma) – Svako polje je required I ako se ne popuni popuni ili je pogrešno popunjeno polje pri kliku na “Sign Up” ta polja koja su loša dobiju crveni border, ukoliko je polje dobro popunjeno klikom na “Sign Up” ono dobija zeleni border.

Email mora biti@....com .

Password mora biti duži do 8 karaktera, a Password again mora biti isti kao u polju “Password”
